**MAPFRE AND CATTOLICA WILL NOT DEVELOP
THE MAPFRE CATTOLICA AUTO PROJECT**

Both entities will study new ways of collaboration in the Italian market

Notice is hereby given that MAPFRE and CATTOLICA will not develop the planned joint venture MAPFRE CATTOLICA AUTO, which has not received the mandatory authorisation from ISVAP, due to the differences arising with respect to the terms of the management sharing in the new company, and the planned collaboration of CATTOLICA's network.

MAPFRE and CATTOLICA, which have a long track record of good institutional relationships, will conduct additional studies to identify new areas and ways of collaboration, both at an industrial and institutional level.

In this context, MAPFRE, which reduces its committed investment by €473 million assigned to the planned MAPFRE CATTOLICA project, has the intention of maintaining its 8.5% stake in CATTOLICA.

CONTINUATION OF THE ALLIANCE BETWEEN CATTOLICA AND MAPFRE

The Chairmen of MAPFRE, José Manuel Martínez, and CATTOLICA, Paolo Bedoni, have held a meeting in Madrid. In said meeting, the Chairmen have confirmed their willingness to maintain and develop further their good collaborative relationship, and in particular to:

- Continue the exchanges in reinsurance between CATTOLICA and MAPFRE RE, the latter being one of CATTOLICA's main reinsurers.
- Develop a new field of collaboration in the Assistance line, where CATTOLICA will entrust MAPFRE ASISTENCIA with providing services for its motor insurance and household insurance customers.
- Continue studying other possible fields of collaboration.

FUNDACIÓN MAPFRE
P. 04/05/08

**MAPFRE RANKS AMONG THE THREE LARGEST INSURANCE GROUPS
IN LATIN AMERICA AND REMAINS THE LEADING NON-LIFE INSURER**

**FUNDACIÓN MAPFRE publishes the
2006 ranking of insurance groups operating in the region**

MAPFRE, at the close of 2006, was ranked as the third largest insurance group in Latin America, according to a report published by FUNDACIÓN MAPFRE, which analyses the business development of the 25 largest insurance groups in the region. MAPFRE, which also ranked as the largest Non-life insurer for the second consecutive year and as the second largest multinational insurance company, according to the respective rankings, had an overall market share of 4.5%, equal to that of the company that precedes it in the ranking.

The positive development of MAPFRE's business in the region allowed the Group to improve significantly its leading position in the Latin American countries, as well as to move up in the overall ranking by one position. MAPFRE, at the close of the year, recorded a faster growth rate than the sector as a whole, increasing its premiums volume in the region by 26.4%, and also grew above the average for the 25 largest groups, whose business volumes went up by 22.1%. The Group recorded in these countries a direct insurance business volume of €2,424 million, with a Non-life market share of 6.2% and above-average growth rates in Life assurance.

MAPFRE's leading position in Latin American direct insurance is a result of the efforts started in 1984, which have turned the Group into one of the largest foreign insurers by volume of investments in the region. MAPFRE is present in 19 Latin American countries and has one of the largest distribution networks of any financial entity in the area. At the end of 2006, the Group had 1,655 branches in Latin America and is currently carrying out a territorial expansion plan that will allow it to reach 2,000 branches by 2008.

The ranking published by FUNDACIÓN MAPFRE was prepared using the figures released by the Supervisory Authorities of the various countries and includes comments about the main corporate operations that took place in the insurance sector in these countries.

The rankings can be found in the attached document and in the publications of "Instituto de Ciencias del Seguro de FUNDACIÓN MAPFRE" (The Insurance Sciences Institute of FUNDACIÓN MAPFRE).

A snapshot of MAPFRE

An overview of the acquisition of Commerce

Brief summary of 9 months 2007 results

MAPFRE at a glance

- MAPFRE is an independent Spanish group, which carries out activities in the fields of insurance, reinsurance and services primarily in Spain, Europe and the Americas.
- It has a direct presence in 40 countries across various business lines, which has consistently provided increasing and diversified results:
 - Spain's leading insurance group, with the strongest brand name, the widest distribution network and market shares of 17.4% in Non-Life insurance premiums and 8.3% in Life assurance premiums (2006 figures);
 - Largest Non-life insurer in Latin America, with a 6.2% market share, and 3rd largest overall, with a 4.5% market share (2006 figures).
- Recently announced acquisitions will further increase the level of diversification and consolidate MAPFRE's position as a Top 10 Non-life insurer in Europe.
- At year-end 2006, MAPFRE recorded premium volume of €10.9 bn, third-party funds under management of €20.5 bn and a pretax profit of €1.2 bn.

A snapshot of MAPFRE

Growth drivers

- Top line:
 - Expansion of business in comparatively faster-growing and underpenetrated areas.
 - Integration and development of product portfolio in new acquisitions and JVs.
 - Enhanced cross-selling of retail Non-life products.
 - Expansion of the distribution network.
- Bottom line:
 - Integration of new acquisitions and JVs.
 - Efficiency improvement initiatives in Spain.
 - Higher productivity and larger network in Latin America.

External growth

- MAPFRE has recently announced an agreement to acquire US insurer Commerce Group, Inc. ("Commerce"). Once completed, this will be the largest investment in the Group's history.
- The acquisition of Commerce is in addition to a series of acquisitions, JVs and agreements announced over the last twelve months, which have considerably enhanced MAPFRE's global reach and competitive position.
- MAPFRE INTERNATIONAL will now focus on consolidating its new business activities.
- Additional bancassurance JVs and acquisitions are possible in those countries where MAPFRE already has a presence, if:
 - They increase MAPFRE's exposure to unexploited or underdeveloped market segments
 - Their growth and profitability can be enhanced by MAPFRE's expertise.
 - They are expected to become accretive or value-additive within a short period.

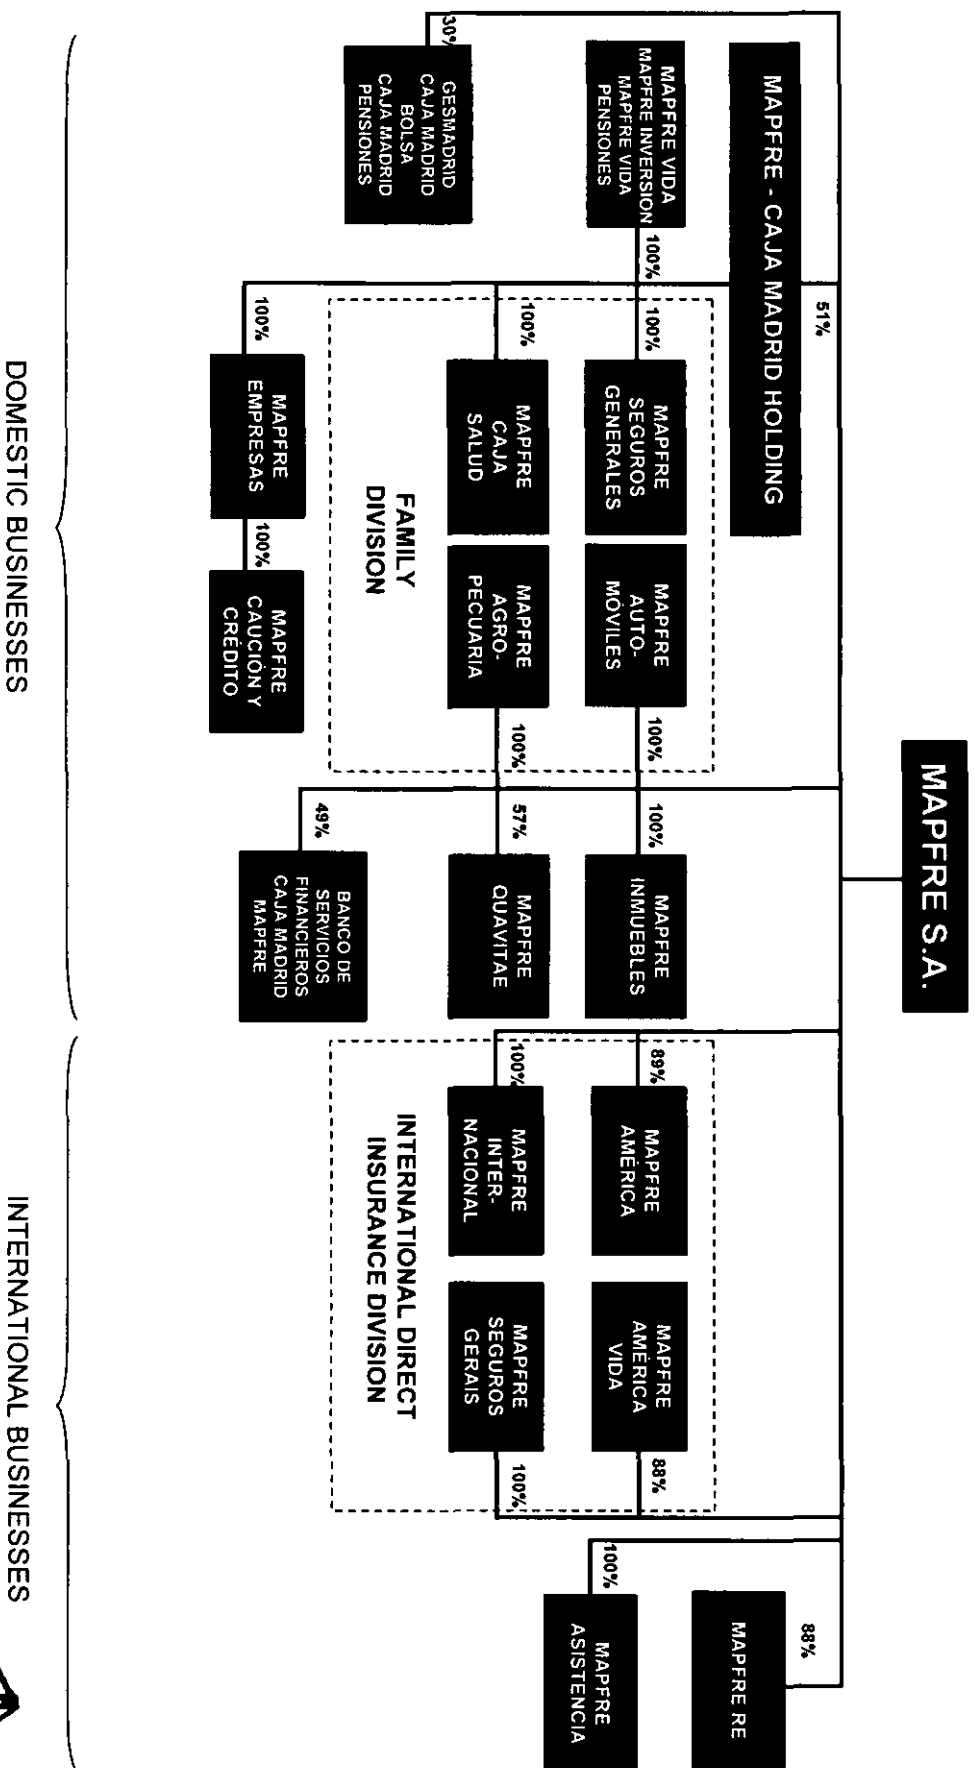

Cancellation of the planned joint venture with Cattolica

- MAPFRE and Cattolica will no longer set up the planned joint venture MAPFRE CATTOLICA AUTO, which has not received the mandatory authorisation from ISVAP (Italy's insurance supervisor), due to the lack of agreement on the terms of shared management in the new company and the planned collaboration of Cattolica's network
- MAPFRE and Cattolica, which have a long track record of good institutional relationships, will conduct additional studies to identify new areas and ways of collaboration, both at an industrial and institutional level.
- The cancellation of the joint venture reduces MAPFRE's investment commitments by €473 million.
- MAPFRE intends to maintain its 8.5% stake in Cattolica.

An overview of the acquisition of Commerce

Nr 2007 - 34

Commerce: strong underwriting track record

Commerce: strong profitability and cash generation

- Commerce has consistently recorded above-industry-average returns and substantial cash generation on the back of its recurring positive underwriting results and strong net financial income.

■ ROE (excluding AOCI and realised gains)

— Cash flow from operations as a % of net premiums written

Commerce development within the MAPFRE Group

- Upon completion, MAPFRE would retain Commerce's management team and together both groups would design a cautious growth strategy, which would initially focus on:
 - Business expansion in and outside of Massachusetts.
 - Design of dedicated products and services for the Hispanic community.
 - The deployment of MAPFRE's expertise in personal lines products, IT and in reinsurance.
 - Cost savings from discontinuation of listing (estimated at about \$7mn/year).
- Commerce's operations will remain in Massachusetts.

MAPFRE

Financial impact: value creation for MAPFRE shareholders

- MAPFRE is offering to acquire all shares of Commerce at a price of \$36.70 each, paid entirely in cash, implying:
 - A total consideration of \$2,207mn (€1,538mn).
 - Multiples of 13.1x 2008 expected earnings (First Call consensus) and 1.65x book value (Q3 '07).
 - A premium to market of 17.9% vs. 30th October's closing price, 22.5% vs. the 30-day average and of 20.4% vs. the 3-month average.
- The Board of Commerce deems the offer to be fair and will recommend the transaction to its shareholders.
- The acquisition will be funded initially through a bridge loan. Long-term funding expected to come from an equity capital raising of €500mn, the issuance of hybrid debt of up to €800mn and internal resources.
- The transaction will be immediately EPS accretive (€ 0.007 in 2008 and € 0.008 in 2009).
- Completion is subject to the relevant regulatory authorisations and to the requisite approval by the holders of at least two-thirds of Commerce's common stock. Once approved, it will be carried out through the merger of a subsidiary of MAPFRE with Commerce, under U.S. regulations.

Brief summary of 9 months 2007 results

Nº 2007 - 34

Drivers of 2007 results to 30.09.2007

- Gross written and accepted premiums grew 11.8% to €9,367.7 million, reflecting:
 - Spain Non-life (+3.4%): virtual stability in Motor (-0.7%) and growth in Non-Motor lines (+6.5%).
 - Spain Life: strong 36.2% increase, coming primarily from the Life – Savings business.
 - Abroad: sustained expansion in direct insurance (+14.5% in Non-life and +28% in Life), driven primarily by Brazil and Mexico.
 - Reinsurance: +10.3% increase, thanks to good business development, especially in Latin America, the USA and Asia.
- The combined ratio decreased 1.1 p.p., due primarily to a significant decline of the loss ratio in Motor insurance in Spain, in Latin America and in Commercial insurance.
- The net financial income decreased slightly because of: lower gains from the realisation of real estate investments in the Motor business in Spain; the reduction in the value of hedging swaps in the Life business in Spain stemming from the rise in interest rates; and larger financial expenses arising from the increase in debt levels.
- Taxes grew at a slower rate than the gross result, due mainly to the reduction in the corporate tax rate in Spain to 32.5% (35% in 2006).
- The result attributable to minority interests grew faster than the result after tax, due to the 18.1% increase in results after tax at MAPFRE – CAJA MADRID HOLDING.
